

Drew,

Please find below a summary estimate of cost for the Chilcoot-Dotta Guidici Rd project.

**Project Scope:** Install HH225CE with 300HP VFD, fuse 3,500' of 12" HDPE with four tees branched off to 6" perforated pipe. All HDPE pipe and fittings are sale items and will be left on site.

**Operating Parameters:** 1 to 3 CFS at 200' of head.

Although there may be some cost variance as we get closer to the start date, we are confident that this estimate accurately captures the overall scope and expected requirements of the project. We will continue to refine the numbers as more details are finalized.

Please let me know if you have any questions or would like to review the estimate in more detail

Chilcoot- HWY 70/ Dotta Guidici Rd
